EMERGENCY FIRE BLANKETS

- Protects equipment and personnel from dangerous welding sparks
- Improves employee safety and reduces fire risk
- Manufactured of lightweight non-asbestos fibreglass
- Suitable for continuous temperatures up to 1000°F; capable of higher temperatures for shorter durations
- Soft, flexible and easy to use
- Resists organic solvents, most acids and alkalis
- Will not attract mildew or mould
- Thermal insulation properties
- Available in two standard sizes: 5' W x 6' H (white) and 6' W x 6' H (orange)
- Bag size: 16" W x 23" H

EXTENSION POLES & ACCESSORIES

- Used with smoke detector tester, light weight aluminum poles allow user to test detectors up to 30' in height without the use of ladders
- The head extension pole holds the aerosol can, while the arm extension pole allows you to reach greater distances
- Multiple arm extension poles must be used in conjunction with the head extension pole to reach the maximum height of 30'
- The fibreglass adapter tube reduces the tendency to overspray and maintains the aerosol an appropriate distance from the detector, making it easier to conduct tests

WATER JEL® FIRE BLANKETS

- Multipurpose fire blanket made of 100% wool, saturated with Water Jel® gel
- Packaged in a high-density, water-resistant, polyethylene case
- Size: 60" x 72"

Uses:

- emergency burn victim care and fire protection
- to extinguish small fires
- to construct an escape route
- to shield and protect a rescuer from intense heat and flames
